Galle, Sri Lanka

ABOUT ME

I am a passionate and detail-oriented Software Engineering student with a strong foundation in programming, web development, and problem-solving. I enjoy working on innovative projects, learning new technologies, and contributing to team success. My goal is to become a skilled full-stack developer and build impactful software solutions that improve user experiences.

EDUCATION

Borcelle University | 2023 – 2027

B.Sc. (Hons) in Software Engineering

- Focused on software development, algorithms, databases, and cloud computing.
- Completed projects in web application development and mobile app design.
- Member of the Computer Science Society.

Galle Central College | 2021 – 2023

Advanced Level Examination – Physical Science Stream

- Subjects: Combined Mathematics, Physics, ICT
- Achieved strong academic performance with distinction in ICT.

WORK EXPERIENCE

Tech Solutions | 2025 – Present

Intern Software Engineer

- Assisted in developing a web-based e-commerce platform using React.js, Node.js, and MongoDB.
- Collaborated with senior engineers to fix bugs and improve UI performance.

Freelance Projects | 2024 – Present

Web Developer (Part-Time)

- Designed and developed portfolio websites for students and small businesses.
- Built a restaurant management system using PHP, MySQL, and Bootstrap.
- Learned how to work with clients, gather requirements, and deliver projects on time.

SKILLS

- Java
- Python
- JavaScript (ES6+)
- C/C++
- MySQL, MongoDB
- Firebase
- Basic AWS / Azure knowledge
- Problem-Solving & Debugging
- Object-Oriented Programming (OOP)
- Team Collaboration & Communication
